The Porirua, Kapiti and Wellington Chambers of Commerce, in partnership with BDO, Duncan Cotterill, and Westpac are hosting a roundtable session bringing franchisors and franchise operators from every industry together to discuss the unique challenges you face as a group.

Our Guest Speaker, Nicola Tiffen leads Duncan Cotterill's national immigration team across its five offices. She is a specialised immigration lawyer providing practical guidance to employers, business owners and HR professionals to support migrants with their visas and obtaining immigration accreditation for employers.

Nicola will talk to us about the impact COVID-19 has had on immigration, and navigating this changing and challenging landscape. This will include discussion on the recently changed work visa requirements, border closure exemptions, and the delayed compulsory accreditation scheme.

Come along to network over drinks and nibbles with other locals in the franchise industry.
